

JET SKI SAFETY CHECKLIST · ONE SHEET PER RIDE

Run the same checks on every ride and keep the sheet with the booking. Requirements on age, licences and on-board equipment depend on where you operate: confirm them locally and add them below.

RIDE

Craft no. · booking ref.

Driver and passengers

Names

Launch time · agreed return time

1 · BEFORE LAUNCH: THE CRAFT

- ☐ Hull: no cracks or new damage since the last ride; drain plugs in.
- ☐ Engine starts and idles normally; no fuel smell in the engine compartment.
- ☐ Fuel enough for the slot plus a reserve.
- ☐ Kill-switch lanyard present and working: the engine stops when it is pulled.
- ☐ Throttle and handlebar move freely and return to neutral.
- ☐ Required equipment on board for your location, such as a whistle or a fire extinguisher.

2 · THE RENTER

- ☐ Age and any licence or boater card required where you operate, checked against an ID.
- ☐ Rental agreement and waiver signed, by the driver and by every passenger.
- ☐ Life jacket of the right size, fastened and adjusted, for everyone on board.
- ☐ Not under the influence of alcohol or drugs.
- ☐ Number of people on the craft within its rated capacity.

3 · THE BRIEFING

- ☐ Controls: throttle, how to stop the engine, and that a jet ski needs throttle to steer.
- ☐ Lanyard attached to the driver's wrist or life jacket at all times.
- ☐ The riding zone, its limits, and the distance to keep from swimmers, other boats and the shore.
- ☐ How to reboard after a fall, and what to do if the engine stops.
- ☐ The return time and the signal staff use to call riders back.

4 · ON RETURN

☐ Return time recorded; late returns noted under the rental agreement.

☐ Craft checked for new damage, with photos if there is any.

☐ Fuel level recorded and the craft refuelled for the next slot.

☐ Any incident during the ride written down while the renter is still there.
